

WE'RE MORE THAN SOFTWARE DEVELOPERS.  
**IT'S ALL ABOUT  
THE EXPERIENCE.**

## Java Software Developer (m/f/x)

Java | Server-side High-Performance Computing | Big Data | Cloud Monitoring |  
AI-powered | Distributed Systems | Agile Principles | Flat hierarchy

Excited about **Java development**? Eager to join a **global leader** that enables **digital transformation**? Looking for teammates who appreciate **open communication** and face **challenges** together as a team?

### Your role in the team

Depending on **your preference and strengths**, you could potentially be working on:

- **Storage and Analytics Systems** – Applied high-performance computing, finding new ways of processing immense data payloads, storage, and applied analytic.
- **Application Security** – Vulnerability detection and risk assessment for cloud-native applications.
- **Software distribution system** – Enabling our customers to use the full range of our product, including custom extensibility.

### Your profile

- **Technical studies** related to software engineering (or similar)
- **Experience in Java development**
- Understanding of Software Architecture
- **Team player** and pro-active (wo)man of action
- Excited to **learn new technologies**

### You will love this job if

- you enjoy learning **new technologies**.
- you appreciate **team spirit** and like swapping new ideas with your teammates.
- you take working with agile methods (**Scrum**) for granted.
- an **international environment** is attractive to you.

Due to legal reasons we are obliged to disclose the minimum salary for this position, which is € 38,010 gross per year based on full-time employment (38.5 h/week). We offer a higher salary in line with qualifications and experience.
