

WE'RE MORE THAN SOFTWARE DEVELOPERS.  
**IT'S ALL ABOUT  
THE EXPERIENCE.**

## Team Lead (m/f/x) for Keptn Open-Source development

Leadership | Agile Principles | Flat hierarchy | Mentoring | Coaching | Open-Source | TypeScript | Node.js | Automation

We have made it our mission to ensure that millions of people worldwide have an excellent user experience, made possible through a unique combination of observability, automation, and AI—all compacted into one cloud-based software intelligence platform to give our customers visibility and precise, AI-backed answers across their entire digital ecosystem.

### Your role in the team

- **Lead a team** working on the Keptn
- Collaborate and assist your colleagues in international development teams
- **Mentoring and coaching** of your team members
- You will be driving the implementation of the Keptn UI and the Node.js based backend
- Work together with the **multiple teams** focused on Cloud Automation in different labs
- Contribute to the Keptn **open-source project** and interact with the community

### Your profile

- Technical education related to Software Engineering (or similar)
- **Empathetic** person with a passion for **mentoring, coaching**, and transferring your own knowledge
- TypeScript, Node.js **software developer** (m/f/x) with **minimum 3 years** of relevant experience
- Working knowledge of containerization technologies (Docker, Kubernetes)
- Excellent problem-solving, organizational, and analytical skills
- Communicative personality with customer-centric **end-to-end thinking** who is enthusiastic about development
- Experience with Angular is a plus

Due to legal reasons, we are obliged to disclose the minimum salary for this position, which is EUR 50,000 gross per year based on full-time employment (38.5 h/week). We offer a higher salary in line with qualifications and experience.
